Degree	Institute	Score	Year
B.Tech – ECE	Sri Manakula Vinayagar Engineering College	8.4 CGPA	2021 – 2025
Higher Secondary	Alpha English Higher Secondary School	91.03%	2021
Secondary	Alpha English Higher Secondary School	91.8%	2019

EXPERIENCE

- Zoho Corporation**
Software Developer

July 2025 – Present
Chennai, India
- Developed and delivered **4+ geospatial mapping features**, including CJK (Chinese, Japanese, Korean) local-language support, for a platform serving **4M+ users**.
 - Revamped the map user interface and resolved **5+ critical mapping issues**, improving usability and localization capabilities.
 - Developed and integrated **2 backend APIs** using Java, JavaScript, SQL, and MySQL to support localization and mapping workflows.
 - Contributed to **5 production releases** in collaboration with a **3-member engineering team**.
 - Participated in code reviews, feature planning, and deployment activities to maintain code quality and release reliability.

PROJECTS

- Full Stack Banking Application**
MERN Stack

2024
Github
- Developed a full-stack banking application with **5 user-facing pages** and **12 REST APIs** using MongoDB, Express.js, React, and Node.js.
 - Implemented **JWT-based authentication and authorization** to secure user accounts and financial transactions.
 - Designed and managed **3 database collections** supporting account management, authentication, and transaction workflows.
 - Built scalable client-server architecture capable of supporting approximately **300 concurrent users**.
- Regenerative Dual Charging System for Electric Vehicle**
Hybrid Renewable Energy System

2025
- Designed and built a working prototype of a hybrid EV charging system integrating solar energy and wind-assisted regenerative charging.
 - Collaborated within a **3-member team** to develop renewable energy harvesting and storage mechanisms.
 - Generated approximately **10 Wh** of supplemental energy through prototype testing.
 - Published research findings in an **IEEE Conference Paper** co-authored by **4 researchers**.
- AI Resume Screening System**
Python, Machine Learning, NLP

2025
- Developed an AI-based resume screening tool matching candidate profiles with job descriptions.
 - Used TF-IDF vectorization and cosine similarity to rank candidates automatically.
 - Built a recruiter dashboard highlighting best candidate matches.

TECHNICAL SKILLS

- **Programming:** Java, JavaScript, Python
- **Databases:** MySQL, MongoDB
- **Web Technologies:** React.js, Node.js, Express.js
- **Tools & Platforms:** Git, Apache Ant, Mapbox
- **Concepts:** REST APIs, Machine Learning, MERN Stack, Backend Development, Localization, Geospatial Systems
- **Soft Skills:** Problem Solving, Teamwork, Analytical Thinking

ACHIEVEMENTS

- Solved **450+** **LeetCode** problems across Data Structures and Algorithms.
- Maintained **23+** **GitHub** repositories spanning full-stack applications, machine learning, and embedded systems.
- Finalist – **CII Innovation Competition 2024**
- Winner – **Smart India Hackathon (Intra-College)** among **120+** participating teams
- Winner – **Kavaach Hackathon (Intra-College)** among **100+** participating teams
- Winner – **Blind Coding Competition (PTU)** among **20+** participants
- Winner – **Robo Sumo Competition** among **20+** competitors
- Runner-Up – **Line Follower Competition (RGCET)**

WORKSHOPS

- MATLAB Workshop – Indian Institute of Technology Madras
- Web Development Workshop – Indian Institute of Technology Madras
